

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## NOTICE.

THE volume printed under the title of "BURGH RECORDS OF THE CITY OF GLASGOW, M.D.LXXII—M.D.LXXXI," was presented by the Editor to the Members of the MAITLAND CLUB in November 1832. Owing to the local interest excited by the information contained in that collection, a similar line of investigation was prosecuted; and, under the same zealous and able assistance, farther selections were subsequently made from the same original sources. The result of these inquiries was given to the public in the manner stated in the preface, which also accompanies the "MEMORABILIA."

The Editor was desirous of preserving, for the use of private friends, in a more convenient and accessible form, a few copies of what was thus published—and by degrees these accumulated stores have swelled to such a considerable extent, that it became necessary to provide an ample INDEX, for the purpose of facilitating reference. It has been thought that the following pages would form a suitable accompaniment to the "BURGH RECORDS," and there are therefore printed, on proper paper, a few copies of this Index, for the use of those Members of the Maitland Club who are in possession of that work. To those who are partial to the investigation of such matters, this Index will serve to indicate where further information may be obtained, illustrative of the manners and customs of Glasgow at so remote a period.

## NOTICE.

Before concluding this brief notice, it may be proper to remark that the following is the general order of arrangement of the materials which are contained in the "Memorabilia."—The first twenty pages of the volume were set up before a regular plan was devised, and the earlier portion was devoted to some extracts taken from the **BURGH OF Ayr RECORDS**, extending from May 19, 1550, to May 26, 1560.

The portion relating to Glasgow was thereafter commenced, and was, as much as was consistent with the desultory mode in which the original publication was made, kept in an unbroken series.
